EXPERIENCES

Atriume, NJ — Software Engineer

2019 - March 2026

Developed and maintained scalable web applications using React, Redux, Next.js, and TypeScript

Built responsive, high-performance user interfaces using modern web technologies

Collaborated cross-functionally with designers and backend engineers to design, build, test, and improve product features

Participated in the full software development lifecycle, from design and implementation to testing, release, and maintenance

Deployed and hosted applications on AWS and implemented CI/CD pipelines, improving deployment efficiency by ~20%

Led team meetings, provided status updates, and contributed to technical decision-making

Ensured cross-browser compatibility and optimized performance

Mentored interns and junior developers, improving onboarding speed by ~25% and increasing team productivity

Tech/Tools: React, Redux, Hooks, Next.js, JavaScript, HTML, CSS, LESS, Styled Components, Cypress, MySQL, Postman, Git, AWS (EC2, S3, CodePipeline)

Voesh, NJ — Web Developer

2018 - 2019

Developed and maintained Shopify-based eCommerce websites serving thousands of users

Customized frontend features, improving user experience and increasing user engagement by an estimated 10–20%

Implemented UI enhancements to improve responsiveness and cross-device compatibility

Supported ongoing feature updates and performance improvements
